Additional adult education- prospects for development

Additional adult education

for the economically active population

for the elderly people

for young people

- Improving the level and development of their competencies;
- Financial literacy;
- Mobility.

- Computer literacy;
- Active participation in public life;
- Active longevity.

- Financial literacy;
- Increasing the civic engagement of young people.

To continue the theme of education through life, we set ourselves the following tasks:

- ▶ Collaborate under the PASCAL program to develop urban and rural education initiatives;
- ▶ continue the meaningful development of the Center and educational platforms;
- ▶ train specialists who will work in the Center with different categories of residents;
- ▶ ensure the financial stability of the Center;
- ▶ create conditions for the dissemination of ideas of sustainable development in the field of education.
